COMPLETION OF AIRBORNE SURVEY – OLD MOUNT PEAKE, NT

Aurium Resources Ltd (ASX: AGU) is pleased to announce that the airborne survey on the Old Mount Peake tenement, which was conducted by GPX Airborne Services Pty Ltd, has now been completed.

Old Mount Peake is a granted tenement (EL25735) situated 250 kilometres north of Alice Springs, Northern Territory and located in the Arunta Uranium Region.

The Radiometrics and TMI Magnetic fixed-wing airborne survey was conducted at 100 metre line spacings, for 4,338 line kilometres, approximately 60 metres off the ground.

The airborne survey will assist the company in locating uranium anomalies and identifying the drainage patterns of the areas.

The company's independent geologist, Mr Brian Davis, is now processing the data and the company awaits his findings and commentary. As soon as the company is aware of the results, they will be released to the market.
